# ADDITIONAL GUIDANCE FOR COMPLETION OF FORM

## 1 Prescribing Physician Information

- Fill out completely

## 2 Patient Information and 3 Insurance Information

- OnePath services are available for patients 18 years of age and older. Limitations to OnePath product support services will apply as shown in the table below
- Do not submit to Shire any documentation of labs, clinical history, or other documents supporting the prior authorization process

## 4 Diagnosis

- The physician is required to confirm the diagnosis
- NATPARA® (parathyroid hormone) for Injection was not studied in patients with hypoparathyroidism caused by calcium-sensing receptor mutations or in patients with acute post-surgical hypoparathyroidism. NATPARA is only for people who do not respond well to treatment with calcium and active forms of vitamin D alone, because it may increase the possible risk of bone cancer (osteosarcoma). It is not known if NATPARA is safe and effective for children 18 years of age and younger. NATPARA should not be used in children and young adults whose bones are still growing
- Limitations to OnePath services may apply, dependent upon diagnosis type as shown in the table below

## 5 Prescription and Prescribing Physician Signature

- NATPARA is available in 4 doses (please select 1): 25 mcg, 50 mcg (recommended starting dose), 75 mcg, or 100 mcg
- Please clarify refill instructions
- This is a prescription; therefore, a physician's signature and date are required

Cause of hypoparathyroidism	Example of services available to eligible patients through OnePath
Surgical (Non-acute, at least 6 months post-op)	<ul style="list-style-type: none"> <li>• Benefits investigation</li> <li>• Injection training</li> <li>• Co-pay assistance (when applicable) and information about financial assistance options, as necessary</li> </ul>
Non-Surgical (Idiopathic)	
Non-Surgical (Autoimmune)	
Non-Surgical (DiGeorge syndrome)	
Surgical (Acute, less than 6 months post-op)	<ul style="list-style-type: none"> <li>• Benefits investigation</li> <li>• Injection training</li> <li>• Referral to Specialty Pharmacy (SPP)</li> </ul>
Non-Surgical (Calcium-sensing receptor mutation)	
Non-Surgical (Other*)	
<b>Additional limitation</b>	
Patients under 18 years of age	

\*See Indications and Usage and Limitations of Use below.

### Indications and Usage<sup>1</sup>

NATPARA is a parathyroid hormone indicated as an adjunct to calcium and vitamin D to control hypocalcemia in patients with hypoparathyroidism.

### Limitations of Use:

- Because of the potential risk of osteosarcoma, NATPARA is recommended only for patients who cannot be well-controlled on calcium supplements and active forms of vitamin D alone.
- NATPARA was not studied in patients with hypoparathyroidism caused by calcium-sensing receptor mutations.
- NATPARA was not studied in patients with acute post-surgical hypoparathyroidism.

### WARNING: POTENTIAL RISK OF OSTEOSARCOMA

- NATPARA is only for people who do not respond well to treatment with calcium and active forms of vitamin D alone, because it may increase the possible risk of bone cancer (osteosarcoma).
- It is not known if NATPARA is safe and effective for children 18 years of age and younger. NATPARA should not be used in children and young adults whose bones are still growing.

Please click here for the [Full Prescribing Information](#), including [Boxed Warning for potential risk of osteosarcoma](#); [Medication Guide](#); and [Instructions for Use](#).

## 6 Patient Authorization to Share Personal Health Information and OnePath® Enrollment

- The patient signature is required to allow personal health information to be shared by third parties to Shire to facilitate access to NATPARA (insurance benefits, self-administration training, transfer Rx to SPP, etc)
- The patient signature allows eligible patients to receive OnePath product support services to assist them in obtaining NATPARA

### What Happens Next?

- Once the completed form has been submitted to OnePath, a dedicated Patient Support Manager will be provided for eligible patients and will contact those patients directly to inform them of the process and all services that may be available to them through OnePath
- The Patient Support Manager will determine insurance benefits and, if applicable, OnePath will assess the patient's eligibility for co-pay support and other means to allow the patient to access NATPARA
